SKILLS

Languages: LANGUAGE, LANGUAGE, LANGUAGE

Web: HTML, CSS, FRAMEWORK, REST APIs

Tools: Git, GitHub, DATABASE, VS Code

PROJECTS

PROJECT NAME — TECH, TECH [github.com/yourusername/project-one](#)

- What it does, with a number in it — 500+ records, 3 departments
- Something it made faster or easier, with the before and the after
- One thing you designed or decided yourself, with a number

PROJECT NAME — TECH, TECH [github.com/yourusername/project-two](#)

- What it does, and how many people used it
- Something measurable — how many pages, how fast, how many users
- The hardest part, and what you did about it

PROJECT NAME — TECH, TECH [github.com/yourusername/project-three](#)

- What it does, with a number in it
- Something you improved, with the percentage or the figure
- What you added that the tutorial did not have

EXPERIENCE

JOB TITLE — COMPANY NAME

MONTH YEAR – MONTH YEAR

- What you owned, with a number in it — users, records, requests
- Something you shipped or improved, with the figure
- A tool, test or process you introduced that is still being used

No job or internship yet? Delete this whole section — your projects carry the page. Once you do have one, move Experience above Projects.

EDUCATION

YOUR DEGREE

YOUR COLLEGE OR UNIVERSITY — START YEAR to END YEAR

CGPA 0.0 / 10 (only if it helps you — otherwise delete this line)

ACHIEVEMENTS

- A competition you placed in, or something you organised
- A certificate worth naming — recent, and relevant
